how safe are your playgrounds?

The CPSC estimates that over 205,000 injuries occur on playgrounds each year, with approximately 15 resulting in death.

The Certified Playground Safety Inspectors Course is the most comprehensive training program on playground hazard identification and risk management methods anywhere.

Two playground safety experts present 15 hours of training, which includes an on-site playground visit. CPSI designed the pre-course study guide and training to prepare you for the Certified Playground Safety Inspector examination. The examination takes place the morning after course completion.

Program highlights include:

- *Identify Hazards on the Playground*
- *Developing Risk Management Tools*
- *Importance of a Comprehensive Safety Program*
- *CPSC Guidance Review*
- *ASTM Standard Analysis*
- *Test Methods of Entrapment, Protrusions and Entanglement*

CPSI does not recommend that you attempt the exam unless you have access to the materials three weeks prior to the course.

information

Preparation?

You will receive your course materials approximately three weeks prior to the first day of the course. It is extremely important that you read the course materials prior to attending the class. Failure to study the materials before the course commonly leads to failure of the exam.

CEU's?

Earn 1.5 CEU's while participating in this seminar. Please be sure to sign the attendance roster for NRPA's records before you leave the seminar. NRPA will forward you a transcript of your attendance 6-8 weeks after the course is finished.

Certification

You will receive notification with your exam results 6-8 weeks after the exam directly from NRPA. If you pass the exam you will be certified as a CPSI Inspector for a period of three years. At the end of your certification cycle you can elect to attend the course again (recommended) or elect to take the exam only. Due to changes in regulations and content it is highly recommended you repeat the course work prior to renewing your certification.
